

IEMA Environmental Sustainability

The IEMA 'All Jobs Greener' suite of courses covers a range of easily accessible and business-applicable subjects, including the main environmental risks and opportunities facing organisations, the importance of resource efficiency and the impacts of pollution, to more strategic discussions that may affect an organisation's ability to do business in the long term. Crucially, the courses also focus on how environmental sustainability can create new sources of value.

RRC provides the IEMA 'All Jobs Greener' courses for in-company classroom delivery throughout the world.

IEMA Certified Environmental Sustainability Skills for the Workforce

This IEMA certified course is designed to help organisations embed environmental sustainability in all areas of their business. It aids compliance and informs discussions throughout the organisation, allowing all workers to contribute to improvements in environmental sustainability in the organisation.

The course is suitable for those working in any job role in any sector.

Course Content

- Main environmental and economic risks and opportunities
- Compliance obligations and business drivers for change
- Main potential impacts on environment and sustainability
- How to improve environmental performance

Assessment

The IEMA Certified Environmental Sustainability Skills for Managers is assessed by a multiple choice exam.
