

IOSH Working Safely

IOSH Working Safely® seeks to improve the safety culture within an organisation by giving individuals a good understanding of their health and safety responsibilities, and how to keep themselves and others safe at work.

It focuses on why health and safety is important and how individuals can make a real difference to the well-being of themselves and others through changing behaviour. Based on best practice rather than legislation, it's suitable for delegates from all countries and types of organisations.

IOSH Working Safely is designed for all employees, at any level in any organisation and in any sector.

Course Content

IOSH Working Safely covers the following topics:

- Introducing Working Safely
- Defining Hazard and Risk
- Identifying common Hazards
- Improving Safety Performance

Assessment

IOSH Working Safely is assessed by a short multiple choice exam and hazard spotting exercise at the end of the course.

If you are studying online, your exam is completed online.
